MEMORANDUM

TO : Assistant Director, Special Operations
Assistant Director, Policy Coordination
Executive Officer, CIA

THROUGH: Budget Officer

FROM : Chief, [REDACTED] Branch 25X1A

SUBJECT: State-CIA Working Group

1. Attached hereto are several copies of the initial draft of the Administrative Agreement between the Department of State and CIA, as contemplated by the State-CIA Working Group.
2. The basic purpose of this agreement is to clarify basic policies controlling mutual administrative support and to establish enduring liaison channels. Complete flexibility as to security requirements, procedural handling and reimbursement mechanics for each specific inter-agency service is contemplated by isolating each such problem as an appendix to the basic agreement.
3. The Department representatives have indicated that a single primary contact point for the Department would be established in the Office of the Assistant Secretary for Research Intelligence for policy, operational and administrative liaison.
4. They were advised that this might not be desirable or practical because of the wide variances between OSO and OPC activities. They were further advised (as we have been informed by OPC officers) that a separate policy liaison point had already been designated by the Department for OPC.
5. The undersigned also expressed the opinion that CIA would of necessity have three primary liaison points: one in OSO, one in OPC, and one in the Executive office, CIA, on policy and operational matters and might have two contact points on the administrative matters, one overt and one covert.
6. In regard to the development of the specific appendices, it is contemplated that work teams from the administrative components of each agency will do the drafting. No appendices would, of course, be finalized without full concurrence of the CIA offices concerned and the primary contact points as they may be designated.
7. In order to establish these contact points, and to further the work, it has been requested that the draft agreement be reviewed and commented upon by appropriate CIA officials as expeditiously as possible.
